

Assessing the Effects of Local Cool Roof Policies on Urban Heat Islands

Comparative Analysis of Daytime and Nighttime UHI

07/30/2021

EPDM Roofing
Association

Travis Michalke, ICF
Thalib Razi, ICF

Research Objectives

- Compare the strength and significance of daytime and nighttime UHIs with results published in the Climate Central study
- Assess the probability of UHI being as prominent as indicated in the Climate Central study using alternate weather stations and summertime periods

Cities Selected for UHI Comparative Analysis

CZ3	CZ4	CZ5	CZ6
Las Vegas, Nevada	Portland, Oregon	Denver, Colorado	Minneapolis, Minnesota
San Diego, California	Louisville, Kentucky	Columbus, Ohio	
	Kansas City, Missouri	Buffalo, New York	
	Albuquerque, New Mexico		
	Washington, D.C.		
	Philadelphia, Pennsylvania		
	Baltimore, Maryland
